

# Manivannan Arunachalam

Country Head, India

Manivannan Arunachalam is the Country Head of Kirusa, India. He is responsible for the India operations, specifically overseeing technical management, testing, and research and development.

Prior to this, Mani held the position of Director of Product Management in Kirusa and led all the aspects of product development. With over two decades of extensive experience in network and systems engineering, he has a proven track record of mentoring and leading teams from the front and delivering technologically innovative solutions for the company. He played a crucial role in setting up and managing the team which deployed and maintained Kirusa's Voice SMS in multiple countries in Africa.

Before his stint at Kirusa, Mani consulted various IT firms to lead their teams to grow their business to new heights. He has worked with leading global companies such as Intel and ICICI Bank. He successfully developed and deployed networking and management tools for various industries. During his tenure at ICICI Bank as Vice President, he was a key member of the management team which was mandated to select various technologies to streamline communication and connect various branches and ATM centers.

Mani holds M.Tech degree in Computer Science from IIT Delhi and B.E. in Electronics & Communication from VIT, Vellore.
